

THE FALL VOICE CONFERENCE

October 25-27, 2018
Seattle, Washington

PROGRAM

***Agenda and speaker times are subject to minor changes.**

FRIDAY OCTOBER 26, 2018 – Main Conference			
7:00 – 8:00 AM	Registration, Continental Breakfast, Exhibit Viewing		
8:00 – 8:10 AM	Opening Remarks		
8:10 – 9:00 AM	<p>FREE PAPERS: Vocal Fold Paralysis Moderators: VyVy Young, MD and Christopher Bingcang, MD</p> <p><i>Spontaneous reinnervation in unilateral vocal fold paralysis - Tuan-Jen Fang, MD</i></p> <p><i>Medialization Laryngoplasty/Arytenoid Adduction: US Outcomes, Discharge Status and Utilization trends - Dale Ekbohm, MD</i></p> <p><i>Time-Adjusted Rate of Recovery of Vocal Fold Paralysis - Lucian Sulica, MD</i></p> <p><i>Magnetic Laryngeal Reanimation as a Novel Treatment for Vocal Cord Immobility - Matthew Rohlfsing, MD</i></p> <p><i>Treatment Outcomes for Laryngeal Reinnervation versus Thyroplasty for Unilateral Vocal Fold Paralysis - Jenny Pierce, MS, CCC-SLP</i></p> <p>Q&A – Audience Discussion</p>		
9:00-10:00 AM	<p>FREE PAPERS: Treatment of Movement Disorders Moderators: Maria Dietrich, PhD and Hakan Birkent, MD</p> <p><i>The Neurosurgical Treatment of Spasmodic Dysphonia: Preliminary results of a Prospective, Randomized, Sham-Controlled (DEBUSSY) Trial - Christopher Honey, MD, DPhil, FRCS, FACS</i></p> <p><i>The Impact of Lee Silverman Voice Treatment (LSVT) on Functional Communication and Voice Handicap: Findings from a Prospective Study - Linda Bryans, MA, CCC-SLP</i></p> <p><i>The role of gender on the outcome of botulinum neurotoxin injection in patients with adductor spasmodic dysphonia - Richard Heyes, MBChB, MRCS</i></p> <p><i>Retrospective Review of Dosing Trends in Botulinum Toxin Injections for the Treatment of Adductor Spasmodic Dysphonia in a Long-term Cohort - Gabrielle French, MD</i></p> <p><i>Safety and vocal outcomes of simultaneous bilateral posterior cricoarytenoid muscle botulinum toxin injections in abductor spasmodic dysphonia - Valeria Silva Merea, MD</i></p> <p><i>Treatment of Type III Laryngeal Synkinesis - review of literature and case report of novel endoscopic treatment option - Benjamin Anthony, MD</i></p> <p>Q&A – Audience Discussion</p>		
10:00 – 10:30 AM	Break: Exhibit and Poster Viewing		
10:30 – 11:15 AM	KEYNOTE SPEAKER: A Conversation with Diane Bless, PhD		
11:15 – 12:15 PM	<p>Panel #1: Voice Issues in the Workplace Moderator: Tanya Meyer, MD Panelists: Christine Estes, MM, MA, CCC-SLP, Jarrad Van Stan, PhD, CCC-SLP, David Rosow, MD and Derek Isetti, PhD, CCC-SLP</p>		
12:15 – 1:15 PM	Lunch Break		
1:15 – 2:15 PM	<table border="1"> <tbody> <tr> <td> <p>FREE PAPERS: Dysphagia Moderators: Derrick Randall, MD and Rebecca Howell, MD</p> <p><i>Prevalence of Esophageal A and B-rings in Patients Presenting with Solid Food Dysphagia - Antonio Cassady</i></p> <p><i>Reproducibility of High Resolution Pharyngeal Manometry Measures in the Study of Dysphagia - Allison Ikeda, MD</i></p> <p><i>Relationship Between Patient Subjective Globus Location and Videofluoroscopic Swallow Study Findings - Gregory Dion, MD</i></p> </td> <td> <p>FREE PAPERS: Voice Science Moderators: Elizabeth DiRenzo, PhD and Bridget Hopewell, MD</p> <p><i>Molecular Characterization of Glucocorticoid Steroid Treatment on Vocal Fold Physiology: A Preliminary Study - Lea Sayce, DPhil</i></p> <p><i>Physiologic Differences and Subgroupings for Normal Vocal Output: A Dynamic Systems Perspective - Daniel Croake, PhD, CCC-SLP</i></p> <p><i>Effects of Vibratory Contact on Vocal Fold Structure and Physiology - Emily Kimball, MS</i></p> </td> </tr> </tbody> </table>	<p>FREE PAPERS: Dysphagia Moderators: Derrick Randall, MD and Rebecca Howell, MD</p> <p><i>Prevalence of Esophageal A and B-rings in Patients Presenting with Solid Food Dysphagia - Antonio Cassady</i></p> <p><i>Reproducibility of High Resolution Pharyngeal Manometry Measures in the Study of Dysphagia - Allison Ikeda, MD</i></p> <p><i>Relationship Between Patient Subjective Globus Location and Videofluoroscopic Swallow Study Findings - Gregory Dion, MD</i></p>	<p>FREE PAPERS: Voice Science Moderators: Elizabeth DiRenzo, PhD and Bridget Hopewell, MD</p> <p><i>Molecular Characterization of Glucocorticoid Steroid Treatment on Vocal Fold Physiology: A Preliminary Study - Lea Sayce, DPhil</i></p> <p><i>Physiologic Differences and Subgroupings for Normal Vocal Output: A Dynamic Systems Perspective - Daniel Croake, PhD, CCC-SLP</i></p> <p><i>Effects of Vibratory Contact on Vocal Fold Structure and Physiology - Emily Kimball, MS</i></p>
<p>FREE PAPERS: Dysphagia Moderators: Derrick Randall, MD and Rebecca Howell, MD</p> <p><i>Prevalence of Esophageal A and B-rings in Patients Presenting with Solid Food Dysphagia - Antonio Cassady</i></p> <p><i>Reproducibility of High Resolution Pharyngeal Manometry Measures in the Study of Dysphagia - Allison Ikeda, MD</i></p> <p><i>Relationship Between Patient Subjective Globus Location and Videofluoroscopic Swallow Study Findings - Gregory Dion, MD</i></p>	<p>FREE PAPERS: Voice Science Moderators: Elizabeth DiRenzo, PhD and Bridget Hopewell, MD</p> <p><i>Molecular Characterization of Glucocorticoid Steroid Treatment on Vocal Fold Physiology: A Preliminary Study - Lea Sayce, DPhil</i></p> <p><i>Physiologic Differences and Subgroupings for Normal Vocal Output: A Dynamic Systems Perspective - Daniel Croake, PhD, CCC-SLP</i></p> <p><i>Effects of Vibratory Contact on Vocal Fold Structure and Physiology - Emily Kimball, MS</i></p>		

	<i>The Relationship Between Posterior Pharyngeal Wall Thickness and Swallowing Function After Radiation Therapy</i> – Lisa Evangelista, CScD, CCC-SLP, BCS-S	<i>Comparison of the s/z ratio to instrumental measures of laryngeal aerodynamics</i> – Ashwini Joshi, SLP
	<i>Treatment and swallowing outcomes of pharyngoesophageal injury after anterior cervical spine surgery</i> – Jeffrey Hsu, MD	<i>Physiological Constraints and Dynamics of Intrinsic Laryngeal Muscle Contraction</i> – Pratik Patel, MD
	<i>Identification and treatment of dysphagia in elderly hospitalized adults</i> – Brianna Crawley, MD	<i>How does the Acoustic Voice Quality Index perform when voice complaints and/or hoarseness are absent?</i> – Youri Maryn, SLP
	Q&A – Audience Discussion	Q&A – Audience Discussion
2:15- 3:05 PM	FREE PAPERS: Evaluation of Movement Disorders Moderators: Ronda Alexander, MD and Kristine Pietsch, MA, CCC-SLP	FREE PAPERS: Pediatric Laryngeal Disorders Moderators: Swapna Chandran, MD and Erin Walsh, MA, CCC-SLP
	<i>The Impact of Deep Brain Stimulation (DBS) on Voice Handicap and Perceptual Voice Characteristics in Patients with Parkinson's Disease</i> – Lily Orcutt, MS, CCC-SLP	<i>The Association between Paradoxical Vocal Fold Motion and Functional Dysphonia in Adolescents</i> – Karen Drake, MA, CCC-SLP
	<i>Videostroboscopy following selective laryngeal adductor denervation and reinnervation for adductor spasmodic dysphonia.</i> – Andrew Vahabzadeh, MD	<i>Understanding patterns of identification, evaluation and management of pediatric voice disorders to address barriers in access of care.</i> – Jana Childes, MS, CCC-SLP
	<i>Acoustic characteristics of essential vocal tremor versus Parkinsonian tremor</i> – Laura Dominguez, MD	<i>Neonatal Vocal Fold Motion Impairment After Complex Aortic Arch Reconstruction: What Should Be Expected After Diagnosis?</i> – Jennifer Rodney, MD
	<i>Does Voice Onset Aid in the Diagnosis of Adductor Spasmodic Dysphonia?</i> – Wenli Chen, MS, CCC-SLP	<i>Management of Muscle Tension Dysphonia: Development of a Pediatric Treatment Algorithm</i> – Danielle Devore, MA, CCC-SLP
	<i>Distinguishing features of vocal tremor associated with Parkinson Disease, Spasmodic dysphonia, and Essential Tremor</i> – Julie Barkmeier-Kraemer, PhD, CCC-SLP	<i>Practical Pathway to Multidisciplinary Swallowing Evaluation in Infants with Congenital Heart Disease</i> – Douglas Sidell, MD
	Q&A – Audience Discussion	Q&A – Audience Discussion
3:05 – 3:30 PM	Break: Exhibit and Poster Viewing	
3:30 – 4:30 PM	FREE PAPERS: Laryngeal Cancer Moderators: Josh Schindler, MD and Jayme Dowdall, MD	
	<i>Evaluation of surgical margin status in patients with early glottic carcinomas (Tis-T2), treated with transoral CO2 laser microsurgery, on local control and survival rates</i> – Martine Hendriksma, MD	
	<i>Longitudinal Voice Outcomes after Radiation for Early Stage Laryngeal Cancer</i> – Matthew Naunheim, MD, MBA	
	<i>The Prevalence of Profound Laryngeal Sensory Neuropathy in Head and Neck Cancer Survivors with Feeding Tube Dependent Oropharyngeal Dysphagia</i> – Omid Mehdizadeh, MD	
	<i>Development of Models to Study Cigarette and Electronic Cigarette – Induced Laryngeal Disease</i> – Elizabeth DiRenzo, PhD	
	<i>The Rising Rate of Laryngeal Squamous Cell Carcinoma among Non- Smoking Patients: Are We Facing a New Disease?</i> – Karla O'Dell, MD	
	<i>Using clinical data to predict intubation-related laryngeal injury based on a modified version of the Reflux Findings Scale: a prospective study</i> – Jeffrey Straub, MD	
4:30 – 5:20 PM	Panel #2: Dilemmas in the Management of Early Laryngeal Malignancy Moderator: Zandy Hillel, MD Panelists: Al Merati, MD, Stephanie Misono, MD, Dinesh Chhetri, MD and Elisabeth Sjogren, MD	
5:30- 6:30 PM	Cocktail Reception - Poster and Exhibit Viewing	

SATURDAY OCTOBER 27, 2018 – MAIN CONFERENCE

7:00 – 8:00 AM	Registration, Continental Breakfast, Exhibit Viewing
8:00 – 8:50 AM	FREE PAPERS: Treatment of Benign Voice Disorders Laura Matrka, MD and Robert Buckmire, MD
	<i>Individualized Patient Vocal Priorities for Tailored Therapy</i> – Ted Mau, MD, PhD
	<i>Treatment Outcomes of Adjuvant Vocal Fold Steroid Injection for Post-Operative Fibrosis Following Microlaryngoscopic Surgery</i> – Chi-Te Wang, MD, PhD

	<i>Patient focused drivers for the cost effective laser treatment of laryngeal papillomatosis in the Canadian health system – Tanya Banerjee, FRCS, MSc, DOHNS, MBChB, BSc</i>	
	<i>A Novel Silk Based Vocal Fold Augmentation Material: 12-Month Evaluation in a Canine Model – Thomas Carroll, MD</i>	
	<i>Use of Restylane and Restylane-L in Vocal Fold Injection Augmentation: Results from of a Series of 109 Injections – Elizabeth Guardiani, MD</i>	
	Q&A – Audience Discussion	
8:50 – 9:50 AM	FREE PAPERS: Voice Therapy Moderators: Emily Malik, MS, CCC-SLP and Aaron Ziegler, PhD, CCC-SLP	
	<i>Vocal Function Exercises for Normal Voice: The Effects of Varying Duration – Mariah Morton, BA</i>	
	<i>Conversation Training Therapy: initial efficacy results of a prospective clinical trial – Amanda Gillespie, PhD</i>	
	<i>Effect of Referral Source on Voice Therapy Initiation and Completion – Edie Hapner, PhD, CCC-SLP</i>	
	<i>Intervention Outcomes of Two Treatments for Muscle Tension Dysphonia: A Randomized Controlled Trial – Chris Watts, PhD</i>	
	<i>Benefits of PhoRTE and Adjuvant EMST in Patients Diagnosed with Presbyphonia: A Case Series – Edie Hapner, PhD, CCC-SLP</i>	
	Q&A – Audience Discussion	
9:50 – 10:20 AM	Break: Exhibit and Poster Viewing	
10:20 – 11:00 AM	KEYNOTE SPEAKER: Hidden Larynx: Learning about voices by studying when they aren't there. – Cara Stepp, PhD	
11:00 – 12:00 PM	Panel #3: Twenty Years of In-Office Laryngeal Surgery: What have we accomplished? Moderator: Lucian Sulica, MD Panelists: Gaelyn Garrett, MD, Blake Simpson, MD, Peter Belafsky, MD and Robert Bastian, MD	
12:00– 1:00 PM	Lunch Break	
1:00 – 2:00 PM	FREE PAPERS: Practical Aspects of Treating Voice Disorders Moderators: Robin Samlan, PhD and Scott Howard, MD	FREE PAPERS: Understanding Barriers to Voice Care Moderator: David Francis, MD and Julina Ongkasuwan, MD
	<i>Comparison of patient anxiety and comfort levels during flexible and rigid laryngeal endoscopy with stroboscopy – Juliana Litts, MA, CCC-SLP</i>	<i>Is Less More? Simplifying patient-reported outcome measures for voice – Matthew Naunheim, MD, MBA</i>
	<i>Web-based perceived present control intervention for voice disorders: A pilot study- Stephanie Misono, MD</i>	<i>Patient Missed Appointments and Combatting Institutional Betrayal in a Public University Otolaryngology Clinic – Sarah Khayat, MD</i>
	<i>Primary Odyphonia: When Pain is Out of Proportion to Dysphonia – Se-in Kim, MA, CCC-SLP</i>	<i>The Role of Socioeconomic Status on Voice Patient-Reported Outcomes – David Lee, MD</i>
	<i>The effect of a preliminary diagnostic hypothesis on videolaryngostroboscopic ratings: implications for clinical diagnosis and treatment – Cara Sauder, MA, CCC-SLP</i>	<i>Can Machine Learning and Deep Neural Networks help distinguish Laryngeal Pathology – Anthony Law, MD, PhD</i>
	<i>In-Office Superior Laryngeal Nerve Block for Management of Paralaryngeal Pain – Kathleen Tibbetts, MD</i>	<i>Increased Interval from Initial Evaluation to Initial Voice Therapy Session Is Associated with Missed Voice Therapy Appointments – Kathryn Pielage, MA, CF-SLP</i>
	<i>Rationale and Utility of Repeat Injection Laryngoplasty – Justin Cole, Medical Student</i>	<i>Prevalence and Characteristics of Dysphonia in U.S. Marine Corps Drill Instructors – Christopher Johnson, MD</i>
	Q&A – Audience Discussion	Q&A – Audience Discussion
2:00 – 3:00 PM	FREE PAPERS: Airway Moderators: James Daniero, MD & Sid Khosla, MD	FREE PAPERS: Cough and Laryngeal Physiology Moderator: Adrianna Shembel, PhD and Lisa D'Oyley, MS, CCC-SLP
	<i>Quantifying the Effect of Surgical Invention on Glottic Airflow in Bilateral Vocal Fold Immobility Utilizing Computational Fluid Dynamics – Robert J. Morrison, MD</i>	<i>Extreme sawtooth sign in motor neuron disease (MND) suggests laryngeal resistance to forced airflow – Deanna Britton, PhD, CCC-SLP</i>
	<i>Objective outcome measures of in-office steroid injection for subglottic stenosis– Reed Gilbow, MD</i>	<i>Computational Modeling of Cough and Airway Clearance in Patients with Disorders of Laryngeal Function – Bari Hoffman-Rudy, PhD, CCC-SLP</i>
	<i>Measuring Inhalational Glottal Opening to Evaluate Surgical Outcomes in Adult-onset Laryngomalacia: A Novel Method for a Rare Entity – Erin Harvey, Medical Student</i>	<i>Aerodynamic Changes in Patients with Chronic Cough Treated with Cough Suppression Therapy – Thomas Murry, PhD</i>

	<i>Efficacy and Safety of the Use of In-Office KTP Laser for the Treatment of Airway Stenosis – Danielle Smith, MD</i>	<i>High Density Surface Electromyography: An Intuitive Means of Non-Invasive Monitoring of Phonation and Swallow – David Bracken, MD</i>
	<i>Laser-Protected Endotracheal Tubes: A Comprehensive Comparison and Guide to Troubleshooting – Lauren Tracy, MD</i>	<i>Assessing Feasibility of Treating Cough Hypersensitivity with Progressive Desensitization Paired with Behavioral Cough Suppression – Laurie Slovarp, PhD, CCC-SLP</i>
	Q&A – Audience Discussion	Q&A – Audience Discussion
3:00 – 3:30 PM	Break: Exhibit and Poster Viewing	
3:30 – 4:20 PM	FREE PAPERS: Laryngology/SLP Potpourri Moderators: Molly Naunheim, MD and Fermin Zubiaur, MD	
	<i>Speech Language Pathology and the Risk of Medical Malpractice – William Karle, MD</i>	
	<i>Incidence of vocal pathologies among first year singing students across genres – Adam Lloyd, MM, MA, CCC-SLP</i>	
	<i>Do Patients Diagnosed with Voice Disorders Consume Cannabis? - A Multi-Center Study of Prevalence and Impact – Aaron Ziegler, PhD, CCC-SLP</i>	
	<i>Long-term Complications of Non-Fixated Laryngotracheal Fractures and 10 year Experience of Immediate Surgical Repair – Hayley Born, MD</i>	
	<i>Evaluating the Effect of Recurrent Respiratory Papillomatosis on Work Productivity – Thomas Chung, MD</i>	
	<i>The Impact of a Voice Disorder on the Voice Use of Older Women – Donna Graville, PhD, CCC-SLP</i>	
4:20 – 5:15 PM	Special Topics: Gender, Voice and Identity Moderator: Leah B. Helou, PhD	
	<i>Incorporating Cultural Competence in Clinical Approaches to Transgender Voice and Communication Therapy in a University Clinic Setting – Carolina Smith, MS, CCC-SLP</i>	
	<i>Voice-Based Predictors of Gender, Femininity, and Vocal Naturalness Ratings – Teresa Hardy, MSLP, R.SLP, PhD</i>	
	<i>Correlating speech and voice features of transgender women with ratings of femininity and gender – Kimberly Dahl, MA, SLP Student</i>	
5:15 PM	Meeting Adjourned	

The Southern Alliance for Physician Specialties CME is accredited by the Medical Association of Georgia to provide continuing medical education for physicians.

The Southern Alliance for Physician Specialties CME designates this live activity for a maximum of 14.75 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The University of Washington is approved by the Continuing Education Board of the American Speech-Language-Hearing Association (ASHA) to provide continuing education activities in speech-language pathology and audiology. See course information for number of ASHA CEUs, instructional level and content area. ASHA CE Provider approval does not imply endorsement of course content, specific products or clinical procedures.

**This course is offered up to 2.2 ASHA CEUs
 (Advanced level, Professional area).**
